

Worksheet 16

November 16, 2026

Name: _____

About 10 minutes total. Begin independently, then discuss. Show your work.

1. A trigonometric quadratic

Solve on $0 \leq \theta < 2\pi$:

$$2 \sin^2 \theta - \sin \theta = 0.$$

(a) Factor. State both equations from the zero-product property.

(b) List every solution in the stated interval.

Name: _____

About 10 minutes total. Begin independently, then discuss. Show your work.

2. An equation with a double argument

Solve on $0 \leq x < 2\pi$:

$$\cos(2x) = \frac{1}{2}.$$

(a) Write the corresponding interval for $2x$, and find all values of $2x$ in it.

(b) Find every value of x in the original interval.
