Worksheet 19

November 9, 2026 Name: _____

About 10 minutes total. Begin independently, then discuss. Show your work.

1. A trigonometric equation in quadratic form

Solve on $0 \le \theta < 2\pi$:

$$2\sin^2\theta - \sin\theta = 0.$$

(a) Factor the expression and write both equations that result.

(b) List every solution in the required interval.

Worksheet 19

November 9, 2026 Name: _____

About 10 minutes total. Begin independently, then discuss. Show your work.

2. An angle inside the function

Solve on $0 \le x < 2\pi$:

$$\cos(2x) = \frac{1}{2}.$$

(a) Let $u = 2x$. State the interval for u and list every value of u in that interval.

(b) Convert back to x and list every solution.
