

Worksheet 1.3

Name: _____

1. **Read the graph.** State the intervals on which f is increasing, decreasing, and constant. Use interval notation.

2. **Even or odd?** Let

$$g(x) = x^3 - 4x.$$

Determine whether g is **even**, **odd**, or **neither**. Show your calculation of $g(-x)$ and compare it with $g(x)$ and $-g(x)$.
